INSPECTION REPORT

Date of Inspection: Mar 08, 2023

Inspection Result: **FAILED**

Permit Number: E-20-0612

Property Address: 3213 WILDWOOD PARK DR, PUYALLUP, WA 98374;

Contractor: PEASE & SONS PO BOX 44100 TACOMA, WA 98444 Brandon Haskins
10601 Waller Rd E Tacoma, WA 98446 (253) 370-6559

To construct: CIVILS ~ FERRUCCI JHS REMODEL & ADDITION**2021 STORM SDC FEES
UPDATED**

On this day we have inspected your construction for **Erosion And Sediment Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: No erosion control has been installed around the exposed soils at the ball field. Silt has entered the French drain see daily inspection on 3/8. There are many areas throughout the site where erosion is happening. Hydro seed is washing off, slopes have rills, plastic has blown off slopes, and track out are just some of these problems. In documents and images file name Ferrucci E&S has 81 pictures of erosion problems. Fix all erosion issues to lift the stop work order. I spoke with Pease & son and asked for the CESCL reports for their NPDES permit with DOE. they where unable to provide these reports that are supposed to be onsite at all times.

Corrections:

- 1 install erosion control measures around the exposed soils in the ball field.
- 2 Fix all erosion control issue throughout site.
- 3 Provide the CESCL reports from the DOE NPDES permit

Sincerely,

Jeff Hill
