

BURGESS DESIGN
INTERIORS + ARCHITECTURE

March 15, 2023

To Whom it may concern,

Below are our narratives of work being proposed and performed for Prologis, located at 1601 Industrial Park #100 Puyallup, WA 98371.

The narratives for architectural, mechanical, electrical, and plumbing are as follows:

Architectural:

A re-demise of an existing vacant office/warehouse space. Existing office area is being decrease in size and made smaller. Work includes non-structural interior tenant improvement with non-structural demolition, new partitions, doors and finishes.

HVAC:

A re-demise of an existing office space. The scope of work includes the demolition of two (2) existing gas-fired RTU's; and an installation of a new RTU (to provide heating and cooling) and an energy recovery ventilator (to provide ventilation).

Plumbing:

A re-demise of an existing office space. The scope of work includes the demolition of a circular wash fountain and a kitchen sink. Installation of any new plumbing fixtures is not included in this scope.

Electrical:

A re-demise of an existing office space. The scope of work includes the demolition of one electrical panel and associated circuits; relocated lighting < 50% of the lights in the existing spaces and provide new warehouse light fixtures in extended warehouse space; and circuiting to new mechanical units.

Sincerely,

Luis Perez
