PERMISSION TO ACCEPT FINAL PERMITS EARLY

Date: _____
 Applicant: _____
 Project Name: _____
 Project Address: _____
 Case Number: _____

The Development Review Team has conducted an initial review of the above-cited development project. At this point, team members have reached a consensus that the building footprint/design and site plan improvements proposed for this plan are unlikely to be affected by further project review/conditions.

Permission Signatures:	<i>Nabila Comstock</i>	Date:
PLANNING	_____	04/14/23
ENGINEERING	<i>[Signature]</i>	4/13/23
BUILDING	_____	_____
FIRE	_____	_____
OTHER	_____	_____

Given this finding, the following permit application(s) may be submitted for this project:

- Clear, fill, and grade engineering permit application
- Civil engineering permit application
- Building permit application

If those final permit applications are submitted prior to completion of the land use process, the applicant must sign the standard disclaimer for early submittals (Attachment B).

FINAL PERMIT SUBMITTAL DISCLAIMER

Project Name: _____

Project Address: _____

Project Case Number: _____

I, the undersigned, understand that an early building and/or engineering permit submittal for this project is being made at my own risk. I understand that City review and approval of the above-cited land use permit is not yet completed and that any changes resulting from City review of this land use permit may alter some aspect of the site/architectural plans, possibly resulting in a need for new final submittals/plan review fees and/or additional review time.

It is understood that no building and/or engineering permit will be issued until completion of the SEPA appeal periods and/or issuance of a condition letter and/or public hearing decision, whichever is last.
