INSPECTION REPORT

Date of Inspection: Aug 29, 2023 **Inspection Result:** **PASSED W/
CONDITIONS**

Permit Number: PRCTI20230877

Property Address: 100 RIVER RD, PUYALLUP, WA 98371;

Contractor: CONCRETE CONSTRUCTION NW 104 MERIDIAN E MILTON, WA 98354

To construct: The project is the reconfiguration of the existing parking area at the Korum Ford Service Center to create an Electric Vehicle Charging Court for 8 vehicles (with one stall being van accessible). No change to the existing driveways or storm drainage system - with the existing asphalt being ground and overlaid with new paving. A concrete walk with foundations for the EV Charging Units is proposed along the existing CMU Wall of the Service Center. Landscaping along Meridian will follow the same landscaping design and materials per the recently upgraded frontage along River Road with the completion of the new Lincoln Showroom. A replacement transformer and electrical gear will be installed by PSE as part of this project (necessitated by the installation of the EV Charging Units).

On this day we have inspected your construction for **Erosion And Sediment Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: -Keep City sidewalk clean and clear.

-Keep Meridian clean. No trackout from the site. No sediment in the gutter.

-Call in Engineering Comment Inspection when Root Barriers are being installed.

Corrections:

Sincerely,

City of Puyallup
