On this day we have inspected your construction for **Engineering Daily Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

**Comments:** CableCom was working on 7th ST SE, halfway on the sidewalk, taking a lane and pushing vehicles into the center lane with no signage and not closing off the southbound traffic from the lane. They were out prior to the approved 9am start time per the TCPS, and there were two other trucks on 27th with one Road Work sign and a spotter watching for cars. Washington Traffic Control did not appear to have the traffic control plan onsite or know how to properly set up for the lane shift. The CableCom foreman had the complete packet but wasn't aware traffic control wasn't completed. They crews made adjustments and were allowed to continue working. They were off the road by 10:15 am.

**Corrections:**

Sincerely,

Cheryl Trimble
