## INSPECTION REPORT

**Date of Inspection:** Mar 12, 2024                      **Inspection Result:**     **FAILED**

**Permit Number:** E-21-0313

**Property Address:** 1015 39TH AVE SE, PUYALLUP, WA 98374;

**Contractor:** DP EXCAVATION 11410 316th st e GRAHAM, WA 98338 (253) 720-7790  
DP EXCAVATION 11410 316th st e GRAHAM, WA 98338 (253) 720-7790

**To construct:** PARKING LOT EXPANSION W. 675 STALLS,CFG~SHB-TC PARKING EXPANSION/BENAROYA

On this day we have inspected your construction for **Erosion And Sediment Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

**Comments:** Multiple bio-swales are rilling.

Heavy silt is entering the clean storm system by way of multiple finished bio-swales.

Second parking area has silt running down the asphalt due to upper parking lot not being stabilized.

Note: HIGHLY recommend getting the design engineer involved. This issue is occurring with minimal runoff. What will happen when the entire upper lot is paved? The steep design of the bio-swales is and will always be an issue unless bottom can be stabilized ASAP. (sod lined)

See corrections below!

### Corrections:

- 1 - Clean swale between upper and lower parking lot.
- Stop rilling in finished bio-swales. Establish bio-swale bottoms.
- Keep BMP's in place to protect inlets.
- Maintain CESCL inspections and SWPPP on site!!!

Sincerely,

City of Puyallup

A handwritten signature in black ink, consisting of a large, loopy initial 'J' followed by a series of vertical, wavy lines that resemble the letters 'LITTLE'. A horizontal line extends from the right side of the signature.
