## PERMISSION TO ACCEPT FINAL PERMITS EARLY

Date: 6/11/2024  
Applicant: Robert Landa  
Project Name: PSD DOUBLE CLASSROOM PORTABLES  
Project Address: 711/721 W MAIN (5870000231/5870000190)  
Case Number: PLCUP20230109

The Development Review Team has conducted an initial review of the above-cited development project. At this point, team members have reached a consensus that the building footprint/design and site plan improvements proposed for this plan are unlikely to be affected by further project review/conditions.

## FINAL PERMIT SUBMITTAL DISCLAIMER

Project Name: PSD DOUBLE CLASSROOM PORTABLES  
Project Address: 711/721 W MAIN (5870000231/5870000190)  
Project Case Number: PLCUP20230109

I, the undersigned, understand that an early building and/or engineering permit submittal for this project is being made at my own risk. I understand that City review and approval of the above-cited land use permit is not yet completed and that any changes resulting from City review of this land use permit may alter some aspect of the site/architectural plans, possibly resulting in a need for new final submittals/plan review fees and/or additional review time.

It is understood that no building and/or engineering permit will be issued until completion of the SEPA appeal periods and/or issuance of a condition letter and/or public hearing decision, whichever is last.
