Contractor: MCKEE ENTERPRISES, LLC PO BOX 5 ENUMCLAW, WA 98022

To construct: Grading for relocation and restoration of an existing stream at the East Town Crossing site. STREAM RELOCATION - EAST TOWN CROSSING

On this day we have inspected your construction for **Engineering Daily Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: McKee had already stripped south of the silt fence that was already installed by the time I arrived onsite. They have added silt fence 5' off of the existing culvert heading to the pond. I instructed them to finish installing the silt fence since everything was ready to go. I also instructed them to get some straw and pack it into the disturbed soils caused by keying in the fence. I informed them once the silt fence was in and soils have been stabilized they must install all outlet protections as stated on page C1.0 of the plans.
