## INSPECTION REPORT

**Date of Inspection:** Aug 16, 2024                      **Inspection Result:**     **FAILED**

**Permit Number:** PRCCP20220770

**Property Address:** 1601 39TH AVE SE, PUYALLUP, WA 98374;

**Contractor:** ABSHER CONSTRUCTION CO PO BOX 280 PUYALLUP, WA 98371-0152  
Raygan Kettman 1001 SHAW RD E PUYALLUP, WA 98372

**To construct:** The project proposes a new STEM classroom and laboratory building and a new parking lot, net gain of 100 stalls. Improvements include asphalt paving, concrete paving, a new building, utilities services for the new building, and stormwater management. Utility services include domestic water and water main, sewer main and services, natural gas, primary and secondary power, and telecommunications. Modifications to the existing parking lot east of the building and sidewalks adjacent to the building will occur. A belowground detention facility utilizing Stormtech MC-7200 chambers are proposed for stormwater flow control. A bioretention facility will be used upstream of the proposed flow control facility to provide stormwater quality treatment for pollution generating impervious surfaces (PGIS).

On this day we have inspected your construction for **Engineering Daily Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

**Comments:** 8/15 - JL - Spoke with Tunista. we were going to TV the last bit of sewer but they were busy on another project. We will try to do it tomorrow.

8/16 - JL - TV the sewer at the sample tee to MH and then from the sample tee to up under the building. The TV revealed heavy sediment in the line between the MH to up under the building. The sewer needs to be jetted and vaced from the MH to up under the building. About 1" of sediment in the pipe.

**Corrections:**
