PARKING EXPANSION

On this day we have inspected your construction for **Erosion And Sediment Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: 9/11 - JL - Freeman Bell supposedly cleaned and repaired the silt fence. They also were supposed to keep the heavy silt out of the road. I will reinspect tomorrow.

9/12 - JL - Silt fence was repaired and should be finished correctly. Thank you very much for not working in the rain and creating a mess.

Note: See corrections below.

Corrections:

- 1 - Keep the silt cleaned up off the road and near any CB. This directly discharges to an existing pond and into a steady running creek.
 - Silt fence should have a 1' overlap and the bottom flap buried.
 - Keep construction debris off roadway!
 - Maintain dust control!

Sincerely,
