Hi Justin;

Yes, the section E on covenant can cover this, just list both parcel numbers in the agreement and we can move on.

Thanks Justin,

Ken Cook, P.E. | Development Engineering Manager
City of Puyallup

Hi Adam, Ken, and Rachael,

Following up on the discussions this week regarding the mechanism to bind the PHS portable project stormwater facility between the parcel the portables are on and the parcel the stormwater facility is on.

My understanding is that the City concurs that the attached stormwater agreement will meet the code requirements as it is a recorded document over the parcels listed that places a covenant on the parcels and specifies that the agreement is for the landowner to construct, operate, use, maintain, and repair the stormwater facilities in accordance with the plan.

Please let us know if you agree and if this is the correct document to proceed with.

Thanks,

Justin Jones, PE | Civil Engineer
