RE: PRFUP20241440 / JB0001878687 (PHASE 2)

To Whom This May Concern,

This letter is in response to your revision/redline request received October 28th, 2024, for JB0001878687 (PHASE 2)/ PRFUP20241440, located at 1110 W Pioneer Ave, Puyallup, WA 98372. Our comments/responses are as follows:

Engineering Review Division:

Comment 1:

There is an existing utility pole at the location depicted for the proposed (P) pole. Update the site plan symbology and callout description to clarify if a new pole is going to be installed adjacent to the existing pole or if the cable is going to be transferred to the existing pole at back of walk. [SITE PLAN, sheet 5 of 6]

- The proposed or new pole has already been set. That is the existing pole you are seeing is the new pole. I know this because I have a list of pole numbers that we are transferring to and the pole number matches the new pole. This permit is strictly just for the transfer of an existing cable to a new pole. I changed the verbiage on the print to old pole/new pole so that it is not as confusing.

PR5879476 568238-155030 1110 W Pioneer, Puyallup

Comment 2:

- - ROAD WORK AHEAD advanced warning sign required for southbound traffic on 12TH ST SW north of the W PIONEER intersection. [TCP, sheet 1 of 1]

- ROAD WORK AHEAD advance warning sign was added to print on 12th St SW for southbound traffic.

Please do not hesitate to contact me for additional information or clarification.

Thank you,
