On this day we have inspected your construction for **Erosion And Sediment Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: See corrections below. This will prevent any silt from entering the ditch. The 4" drain is not being used anymore and the swale does not need to be directed to the ditch without proper stabilization.

Thank you

Corrections:

- 1 - Remove existing 4" drain from the ditch.
- Fill in the swale.
- Backfill the silt fence.

Sincerely,

A handwritten signature in black ink, consisting of a large, loopy initial 'J' followed by a series of vertical, wavy lines that resemble the letters 'LITTLE'. A horizontal line extends to the right from the end of the signature.
