Provide a description for which the service is sought. This description shall be sufficiently detailed to enable the City to determine whether service is available and to address any related issues, such as those concerning usage, supply line location, connections, meter size, supply volume and pressure, fire flow, etc.):

Project will need a 2" Domestic Water service, a 1" Irrigation Water service, and a 4" Fire water service. These services will be taken from the existing 8" Water main that was recently installed onsite as part of the larger developments construction. The project will also need a 6" Grease waste sewer connection, a 6" sanitary sewer connection, and a 6" trash enclosure drain sewer connection. These sewer services will be connected to the existing 8" sewer main recently installed on the site as part of the larger development's construction. These will serve the proposed ~3800sf quickserve restaurant.
