Certificate of Water Availability

Part A: Completed by Applicant on Permit Application

Subject Site Address:

2902 E PIONEER

| | |
|----------------------------------------------------------------------------|--------------------------------------|
| Assessor's Tax Parcel Number: 0420264021 | Permit Number: PRWSA20241974 |
| Subdivision/Project Name: McDonald's - Puyallup - East Town Crossing | Subject Site Use Type: Commercial |

Part B: Completed by Water Purveyor

State ID #: 70050H

Water system to provide service: City of Puyallup

Existing source capacity: 10,000,000 GPD

Existing storage (distribution capacity): 19.3 million gallons

Number of current/existing users: Multiple

Approved number of connections: One (1)

Are water system facilities approved according to DOH requirements? Yes

Is the proposed development within City Approved Service Area? ☒ Yes ☐ No

Is the water utility providing the service? ☐ Yes ☒ No

Water service will be made available to this project by (date): Within 30 days of permit payment

Has a contract been signed with the applicant for the water service? ☐ Yes ☒ No

Water service will be provided by:

- ☒ Direct connection to approved, existing water main.
- ☒ Extension of existing water main(s), if necessary.
- ☐ New water system in accordance with WAC 246-290 and Pierce County Ordinances 86-117S3 and 92-99.

Notes

If the new water service(s) for the commercial establishment crosses property lines, the water service line(s) shall be located within a recorded easement provided by the applicant to the City prior to issuance of the building permit. The type of easement, i.e., plat amendment, boundary line adjustment, covenant easement, etc., shall be at the discretion of the City.

Fire Flow Information

Fire flow information for all projects including single family residential, multi-family, commercial, and industrial. The amount of available fire flow indicated herein is in addition to requirements for normal domestic maximum use. A water system vicinity map which shows the water mains and fire hydrants serving this project is required for all projects.

Water Main:

Location of nearest water main capable of supplying at least 750 GPM:

Approximate distance from property frontage centerline to abovementioned water main in feet:

Approximate fire flow in GPM available at 20 psi for 120 minutes:

Approximate static pressure at project location in pounds per square inch (psi):

| |
|--------------------|
| SHAW RD |
| 49 |
| Greater than 1,950 |
| 46 |

Fire Hydrant:

Approximate distance from property frontage centerline to nearest hydrant (measured along routes of fire apparatus travel) in feet:

City of Puyallup fire hydrant number:

| |
|--------|
| 222 |
| SE 365 |

Willingness to Serve

The above information is an accurate account of the existing or necessary water system facilities.

☒ For PRELIMINARY short plat, subdivision, land development, or building permit, we understand that this document, in absence of a legal contract, constitutes certification of willingness and ability to provide water service. It is further understood that, in the absence of an approved comprehensive plan, additional engineering approval has been obtained which demonstrates that facilities to provide water service to this project are available or can be constructed.

☐ For FINAL short plat, subdivision, building permit, building occupancy, or septic design, we the undersigned water purveyor, certify that we will assume full operational and maintenance responsibility for the above water system which has been designed, approved and installed in accordance with Washington Administrative Code 246-290, RCW 90.44 (Water Rights Permits), Pierce County Ordinances 86-117S3 and 92-99, and an approve water system comprehensive plan.

Water Purveyor: CITY OF PUYALLUP

Signature Date: February 05, 2025

Certification Expiration Date: February 5, 2028

A Bond or Assignment of Funds (please attach) is acceptable for final land division applications only.

This certificate is not a guarantee of future water availability. Rather, it is an indication of the current City's willingness to sell water subject to any applicable state or federal regulation or rule. Future federal regulations under the Environmental Species Act may limit or eliminate the City's future ability to purvey or sell water outside its city limits.
