THIS IS A TRUSS PLACEMENT DIAGRAM ONLY.
These trusses are designed as individual building
components to be incorporated into the building design
and are not to be used as a reference for the design of
individual design sheets for each truss design identified
on the placement drawing. The building designer is
responsible for temporary and permanent bracing of the
trusses and for the design of the truss support structure including
beams, walls, and columns is the responsibility of the
building designer. For general audience rendering.
