Deviation Justification

Address items 1-9 below. If additional reports, supporting documents and attachments are necessary to clarify/support this request, material shall be listed in item 9 and referenced within items 1-9:

1. Describe the proposed deviation request. (What requirements is the project seeking relief from?)

2. Describe how the proposed deviation request is based on sound engineering principles. (Explain how the granting of this modification will not result in risk or harm related to traffic, storm drainage, water, sanitary sewer, transportation, fire protection or structural matters)

3. Describe how a strict application of the requirement would impose an undue hardship on the applicant. What makes the project in question unique from others to allow a deviation from city standards?

4. Describe how the requirements for safety, environmental considerations, function, appearance, and maintainability would be fully met, assuming the granting of your request.

Alternative Methods and Materials Request Application

5. Describe how granting the modification provides adequate protection of public health, safety, and welfare

6. Does this request require different maintenance cycles, equipment, or skills?

7. Does this request provide for a service life equal to or greater than the City Requirement?

8. Describe how the granting of the proposed modification will be in the best interest of the public.

9. List reports, supporting documentation and attachments accompanying this request:
