Quotation is subject to change upon receipt of detailed specifications and/or refrigeration load information. Refrigeration sizing is based on maximum line runs of 100 feet per system. NOTE: Walk-Ins sold into the state of California may require structural engineered drawings for seismic review. If required, RSG can provide the required drawings and structural support. Please contact RSG for lead time and pricing to meet this requirement. Local Codes: Walk-Ins may need engineered drawings or special construction to meet local code approvals for rain, wind, seismic, and snow load approvals. If required, please contact RSG for lead time and pricing to meet these requirements.
