# Permit Review Correction Letter

## Permit Application #PRCNC20250094

August 01, 2025

The City has completed the review of the above-mentioned permit submittal. All your review comments, conditions, and redlined plans can be found on the City's permit portal. Redlined plans can be found on the City's Permit Portal in the "Reviews" section under "Documents Returned for Corrections". Below please find the permit submittal review comments from your review team and resubmittal instructions. Should you have any questions regarding the review comments, please contact the plan reviewer associated with the comment listed below.

### **Re-submittal Instructions**

To resubmit, you must address all comments and upload a Correction Response Letter that states how the corrections have been addressed in your resubmitted documents. Avoid using "upload additional docs" unless there is NO submittal item available for your document. Please Note: If you have any questions about how to resubmit, please contact the permit center.

- Log in to your permits portal and navigate to the status page for this permit under the "My Items" tab by selecting the "Upload Submittals" button under the permit number.
- For each submittal item listed re-submit a new version of the submittal item by clicking the "New Version" button next to the file name of the original file submitted. DO NOT click the 'browse' button unless the document you are submitting for that submittal item is not a new version of the originally submitted document. Click 'Upload Documents' at bottom of the page.
- If any re-submittal fees have been assessed, you will need to pay your resubmittal fee at the time of resubmittal. Your resubmittal will not be processed until the fee has been paid.

#### Corrections

Corrections to be addressed on the next set of resubmitted plans:

Building Review	Brian Snowden	(253)435-3618	BSnowden@puyallupwa.gov

- Verify whether the two type "1" windows near the door will need to be safety glazed. They appear to be within 24" of the vertical edge of the door in a closed position. [CONSTRUCTION PLAN SET RESUB; 2025\PRCNC20250094\Construction Set\_ETC\_Commercial Lot 1\_R2.pdf; pg. 4]
- Please revise the plumbing plans to conform to the 2021 editions of the Washington State Codes. [CONSTRUCTION PLAN SET RESUB; 2025\PRCNC20250094\Construction Set\_ETC\_Commercial Lot 1\_R2.pdf; pg. 33]
- Note #2 references the residential edition of the 2021 WSEC, which does not apply to this project. Please revise this note to conform to the commercial edition of the 2021 Washington State Energy Code. [CONSTRUCTION PLAN SET RESUB; 2025\PRCNC20250094\Construction Set\_ETC\_Commercial Lot 1\_R2.pdf; pg. 34]
- Please correct the code edition to 2021. [CONSTRUCTION PLAN SET RESUB; 2025\PRCNC20250094\Construction Set\_ETC\_Commercial Lot 1\_R2.pdf; pg. 2]
- Please provide the (plan view) vertical dimensions for the T-shape turn arounds. [CONSTRUCTION PLAN SET RESUB; 2025\PRCNC20250094\Construction Set\_ETC\_Commercial Lot 1\_R2.pdf; pg. 17]
- This note has been cut off. It also references product data on this sheet; however, the correct sheet appears to be sheet A1.1 [CONSTRUCTION PLAN SET RESUB; 2025\PRCNC20250094\Construction Set\_ETC\_Commercial Lot 1\_R2.pdf; pg. 17]
- Sheet S4.4 was not included in the plan set. Please confirm if this note is meant to reference detail 1 on sheet S4.3. [CONSTRUCTION PLAN SET RESUB; 2025\PRCNC20250094\Construction Set\_ETC\_Commercial Lot 1\_R2.pdf; pg. 28]

#### Conditions

The items listed in the table below are conditions of the permit that do not need to be addressed on the next resubmittal of plans but will need to be fulfilled at some point in the permit review process. The "Condition Category" indicates the approximate phase of the permit process by which the condition must be fulfilled for the City to continue processing this permit. "Condition Status" if "Open" means that the condition has not been fulfilled, if "Resolved" means the condition has been fulfilled successfully. For some conditions that require submittal of a document to the City, those documents can be submitted via the Conditions Section of the City's permit portal.

Condition Category	Condition	Department	Condition Status
Prior to Completion	The approved Stormwater Maintenance Agreement shall be recorded prior to the City granting a certificate of occupancy. Once recorded, provide the City with the Auditor File Number (AFN) for verification.	Engineering Division	Open
Prior to Completion	Right-of-way dedication to match the abutting street classification shall be required as determined by Development Engineering. No building permit or development permit shall be granted for the construction or substantial improvement of any industrial, commercial, or residential building, or plat unless the plans and specifications contain provisions for the dedication to the City of sufficient street right of way for the classification of the street abutting the property according to the street plans and street development needs of the city for that street. Building permit PRCNC20241917 cannot be issued until boundary line adjustment PLBDJ20240103 is approved and recorded which depicts the required right-of-way dedication. The building permit site plan must match the approved boundary line adjustment. [Yianni Charitou @ 03/27/2025 8:42 AM]	Engineering Division	Open
Prior to Issuance	Building permit PRCNC20250094 cannot be issued until civil construction permit PRCCP20230970 is issued first. The building permit site plan must match the approved civil plan. [Yianni Charitou @ 03/27/2025 8:44 AM] PRCCP20230970 issued 6/12/2024. [Yianni Charitou @ 08/01/2025 7:28 AM]	Engineering Division	Resolved
Prior to Completion	Occupancy will not be granted until civil construction permit PRCCP20230970 has been completed and the final inspection has been passed. [Yianni Charitou @ 03/27/2025 8:45 AM]	Engineering Division	Open
Prior to Issuance	In accordance with Puyallup Municipal Code 11.08.135, new commercial projects that have a structure improvement value exceeding \$200,000 in valuation are required to complete improvements along the property's street frontage. Your	Engineering Division	Resolved

Condition Category	Condition	Department	Condition Status
	project will be required to complete frontage improvements which may include curb, gutter, planter strips, street trees, sidewalks, storm drainage, street lighting, and one-half street paving (only required if the existing pavement condition is poor) as determined by Development Engineering. The building permit shall not be issued until the frontage improvement designs have been approved by the City and civil construction permit application PRCCP20240569 has been issued. PRCCP20240569 issued 4/22/2025. [Yianni Charitou @ 08/01/2025 7:29 AM]		
Prior to Completion	Your project is required to install frontage improvements in accordance with Puyallup Municipal Code 11.08.135. Building permit occupancy shall not be granted until the frontage improvements are completed and accepted, and civil construction permit PRCCP20240569 is finaled/closed.	Engineering Division	Open
Prior to Issuance	Per Puyallup Municipal Code Chapter 11.24, the property is subject to two recorded sanitary sewer latecomer's agreements. The property owner will be required to submit a development contribution latecomer fee for the Viking JV, LLC sanitary sewer main extension and sanitary sewer lift station/force main as defined in latecomer's agreements recorded under AFNs 202107061306 and 202406210039, respectively. The latecomer's development contribution fees have been assessed on building permit application PRCNC20241917.  Latecomer contribution fees paid under PRCNC20241917 on 3/13/2025.	Engineering Division	Resolved
Prior to Completion	In accordance with the Uniform Plumbing Code and City Design Standard 402.3, an external gravity grease interceptor is required to be designed by a professional engineer and installed on the side sewer per City Standard Details 04.06.01 and 04.06.02. The site plan and plumbing plans shall depict the location and connection of the new or existing grease interceptor. A professional engineer shall provide gravity grease interceptor sizing calculations and a report stating that the existing or new grease interceptor has adequate capacity to serve the site/project. The grease interceptor installed under civil construction permit PRCCP20230970 must be installed, inspected, approved, and fully operational prior to granting building occupancy. Completion	approved reduced pressure backflow assembly (RPBA) device is required to be installed on the commercial water service per City Standard Detail 03.04.02. For more information, visit https://www.cityofpuyallup.org/1131/Backflow-Prevention-Cross-Connection.	Division	
	Upon approval of the installation by the city inspector, the backflow device shall be tested by a Washington State certified backflow assembly tester, and the test report results shall be submitted to the City prior to occupancy of the building.		
Prior to Completion	A 1" fire service is required to supply the structure's fire sprinkler system. The applicant shall coordinate water service connection with the City prior to starting site work by scheduling an inspection through the CityView portal.	Engineering Division	Open
	Per City Design Standard Section 302.3, a double detector check valve assembly (DDCVA) backflow device is required on the fire service line to any building which is equipped with a closed fire sprinkler protection system. The DDCVA shall be located inside the building or in a vault at or near the property line and shall be installed in accordance with City Standard Detail 03.10.01-1 and 03.10.01-2.		
	Upon approval of the installation by the city inspector, the backflow device shall be tested by a Washington State certified backflow assembly tester, and the test report results shall be submitted to the City prior to occupancy of the building.		
Prior to Completion	This property lies within a regulated flood zone. According to the FEMA LOMR Case Number 21-10-0191P issued on April 27, 2022 and effective September 8, 2022, the flooding zone has been revised and the proposed building is no longer within the AE flood zone.	Engineering Division	Resolved
Prior to Issuance	According to PMC Chapter 19.06.020, contiguous parcels are required to be combined when they share common facilities including but not limited to access, parking, utilities, open space, landscaping, signage, etc., for which no easements or other legal instruments exist to ensure continuous ownership, use and maintenance of such facilities. In this particular case, the East Town Crossing parcels share such facilities including driveway access, parking, landscaping, trash enclosures, and utilities. Prior to building permit issuance, the applicant shall apply for and provide a recorded legal instrument for the continuous	Engineering Division	Resolved
