Hello,

Most enclosures are at minimum 14ft wide and have a 40ft apron leading up to the enclosure. Let me know if you have any other questions.

Thanks,

Jessie

Jessie, Jeremiah,

Any word on this?

I'd like to get this plan submitted.

Thank you

Hi Clint,

I got your VM and email. I sent this over to jessie and Jeremiah earlier today to take a look. They are our experts on this. I CC'd them in this email if you would like to reach out directly.

Thanks,

Nick,

We are working through the submittal for the trash enclosure for the commercial areas.  
Can you confirm this will work for you?  
These are all roll offs. No compactor.

Thanks

*Clint Absher*

Hi Clint,

Would you be able to coordinate with the trash hauler to confirm that the proposed location and enclosure size meet their service needs?

We need to respond to this Mark comment:

Provide email confirmation from the waste hauler that the proposed enclosure size and location meets the provider's service needs.

Thanks,

**Christopher Watt** | Civil Engineer

## Trash Enclosure Height

### Summary:

Trash Enclosure must be 15 ft tall, confirmed our design is at least 15 ft tall.

**Subject:** Re: [EXTERNAL] Fwd: ETC - Lot 1/2 trash enclosure

Yes,

We're 15ft on the back side so the front has more clearance than required

9 EAST ELEVATION  
SCALE: 1/4" = 1'-0"

7 SOUTH ELEVATION  
SCALE: 1/4" = 1'-0"

Hey Nick,

How tall the clear height needs to be for the beam below the roof.

On Mon, Aug 4, 2025 at 10:00 AM Nick Perry <[Nicholas.Perry@wasteconnections.com](mailto:Nicholas.Perry@wasteconnections.com)> wrote:

Hi Clint,

Is this about how tall the container is? Or how high the roof needs to be?

Thanks,

**Nick Perry**

Hey Nick,

Can you confirm the vertical clearance on a trash enclosure that has 6yd containers?

No trash compactor.

Thanks

Good Morning.

Do one of you know the vertical clearance (to bottom of beam above the opening)?

Please let me know. I assume it does not need to be as tall as the apartments trash enclosure.

Thanks
