Re: Good Samaritan Hospital Nutrition Kitchen Renovation Project – Frontage Improvements

Dear Chris, Hans and Ken,

This letter relates to the MultiCare Good Samaritan Hospital (MGSH) Nutrition Kitchen Renovation project Phase 2 permit submittal, and the frontage improvements associated with that submittal.

My understanding is that the City and MultiCare continue to collaborate on a potential Development Agreement that memorializes the parties' prior discussions for the frontage improvements associated with the Kitchen Renovation project. The scope of the frontage improvements tied to this project, which are attached for reference, was reviewed by MultiCare and City staff on February 7, 2025. That scope of frontage improvement work is being planned and scheduled to support substantial completion of the final phase of this project and Certificate of Occupancy anticipated no later than October 31, 2026, and in satisfaction of any requirements for frontage improvements associated with that project.

Should any questions arise our team is available to discuss with you at your earliest convenience.

Thank you for your continued collaboration and support with this matter.

Sincerely,

Brad Hinthorne, AIA, LEED AP BD+C
