TO: City of Puyallup Engineering Services

SUBJECT: **PUYALLUP SCHOOL DISTRICT TRANSPORTATION FACILITY  
TRANSPORTATION AND DRIVER TRAINING MODULAR BUILDING  
SITTS & HILL PROJECT NUMBER 16,787.50**

To Whom It May Concern:

Puyallup School District is proposing to install one (1) 28'x36' Modular Classroom Building at their Transportation Facility located at 1501 39<sup>th</sup> Avenue Southwest in Puyallup, WA (Parcel 0419043117). This Modular Building will be placed on a gravel pad and the following utilities will be connected from existing onsite adjacent services: sewer (side sewer), 3/4" domestic water connection, power and communication. Please see the attached Civil Construction Plans for Additional Information. As required by the 2005 Department of Ecology Surface Water Management Manual, only Minimum Requirement No. 2 is required (Total New and Replaced Impervious Surfaces = 1,435 SF) and is included in the attached Construction SWPP. A wetland reconnaissance letter is included as required with the attached Civil Construction Application.

If you have any questions, please don't hesitate to contact me.

Sincerely,

SITTS & HILL ENGINEERS, INC.

Rick Hand, P.E.  
Project Manager
