Good morning Michael,

It is the city's opinion that a further effort on your part is required to place your utility under the sidewalk. This may require that you remove sidewalk panels and/or pothole them. This can be accomplished only by obtaining a permit first.

I have Cc'd Cheryl Trimble, Engineering Franchise Inspector, on this email. Cheryl will inspect your findings and work with you on the proper placement of your utility.

Cheryl, if there is anything else you may want to suggest to Michael please let him know.

Thanks Michael,

I have just sent the info on to one of the City's inspectors. I'll let you know what I find out.

Good Afternoon Linda,

This route was chosen due to the fact there was no room in the side walk to place another utility. Phone, power and Comcast are already under the sidewalk.

The only alternative that we saw was to directional bore under 39th Ave SE and 10th St SE

If you have any questions or require anything further please contact me.

Regards.

Stephen Neumann

Hi Michael,

I have just begun my review of the Zayo project ISO0539048_(Site Plan PH-2). The city prefers to see private utilities under the sidewalk as opposed to a lane of traffic. Can you please investigate placing Zayo's proposed utility under the sidewalk.

Thanks so much.
