Planning Review (Reviewed By: Josh Kubitzka, (253)383-2422, jkubitzka@ahbl.com)

- ◆ Per PMC 20.60.047, the **façade sign maximum area is 1 sq. ft. for each linear foot of the building wall** from which the sign is attached. Per PMC 20.60.037(a), the tenant space width shall be used to determine the maximum sign area. Your application states that the linear measurement of wall from which the sign is attached is 18-feet. Therefore, the maximum allowable sign area is 18 square feet. Per PMC 20.60.047(b), the square footage of the sign is measured by determining the imaginary lines that form the smallest circle, triangle, rectangle, square, or parallelogram drawn around the entire copy or grouping of such letters, words, or symbols. Therefore, the proposed sign is 26.5 square feet, which exceeds the 18 square feet maximum allowed. Revise the proposed sign to be no larger than 18 square feet.
