To Whom it May Concern:

1. PMC 20.59.040.5.c requires that equipment facilities used to house wireless communications equipment shall be located within buildings or placed underground when possible. When they cannot be located in buildings or placed underground, equipment shelters, or cabinets shall be screened. Alternate methods for screening may include the use of building or parapet walls, sight-obscuring fencing and/or landscaping, screen walls or equipment enclosures.

Response:

Revised equipment layout to install proposed 8' tall cedar fence around proposed equipment. See sheets A-1, A-1.1, A-5 & E-1 for details.

Detail 5, sheet A-5 revised and updated per client redlines.

Should you have any additional questions or require any additional information, please do not hesitate to contact our office at (678) 280-2325. Thank you.

Respectfully,

Chad Wilhoit, PE
