On this day we have inspected your construction for **Engineering Daily Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: RW Scott tied the fire line to the main. Parametrix is on site. They flushed the fire line 3 times at 15min. each. The bags had debris in each flush.

Note: I sent an email to the owners, parametrix, and the city's fire inspector asking them to install screen with another flush to verify no debris will clog the fire heads.

Corrections:

Sincerely,

A handwritten signature in black ink, consisting of a large, loopy initial 'J' followed by a series of vertical, wavy lines that resemble the letters 'LITTLE'. A horizontal line extends from the right side of the signature.
