

TEMPORARY TRAFFIC CONTROL PLAN

PRINT ON
11X17" SHEETS ONLY

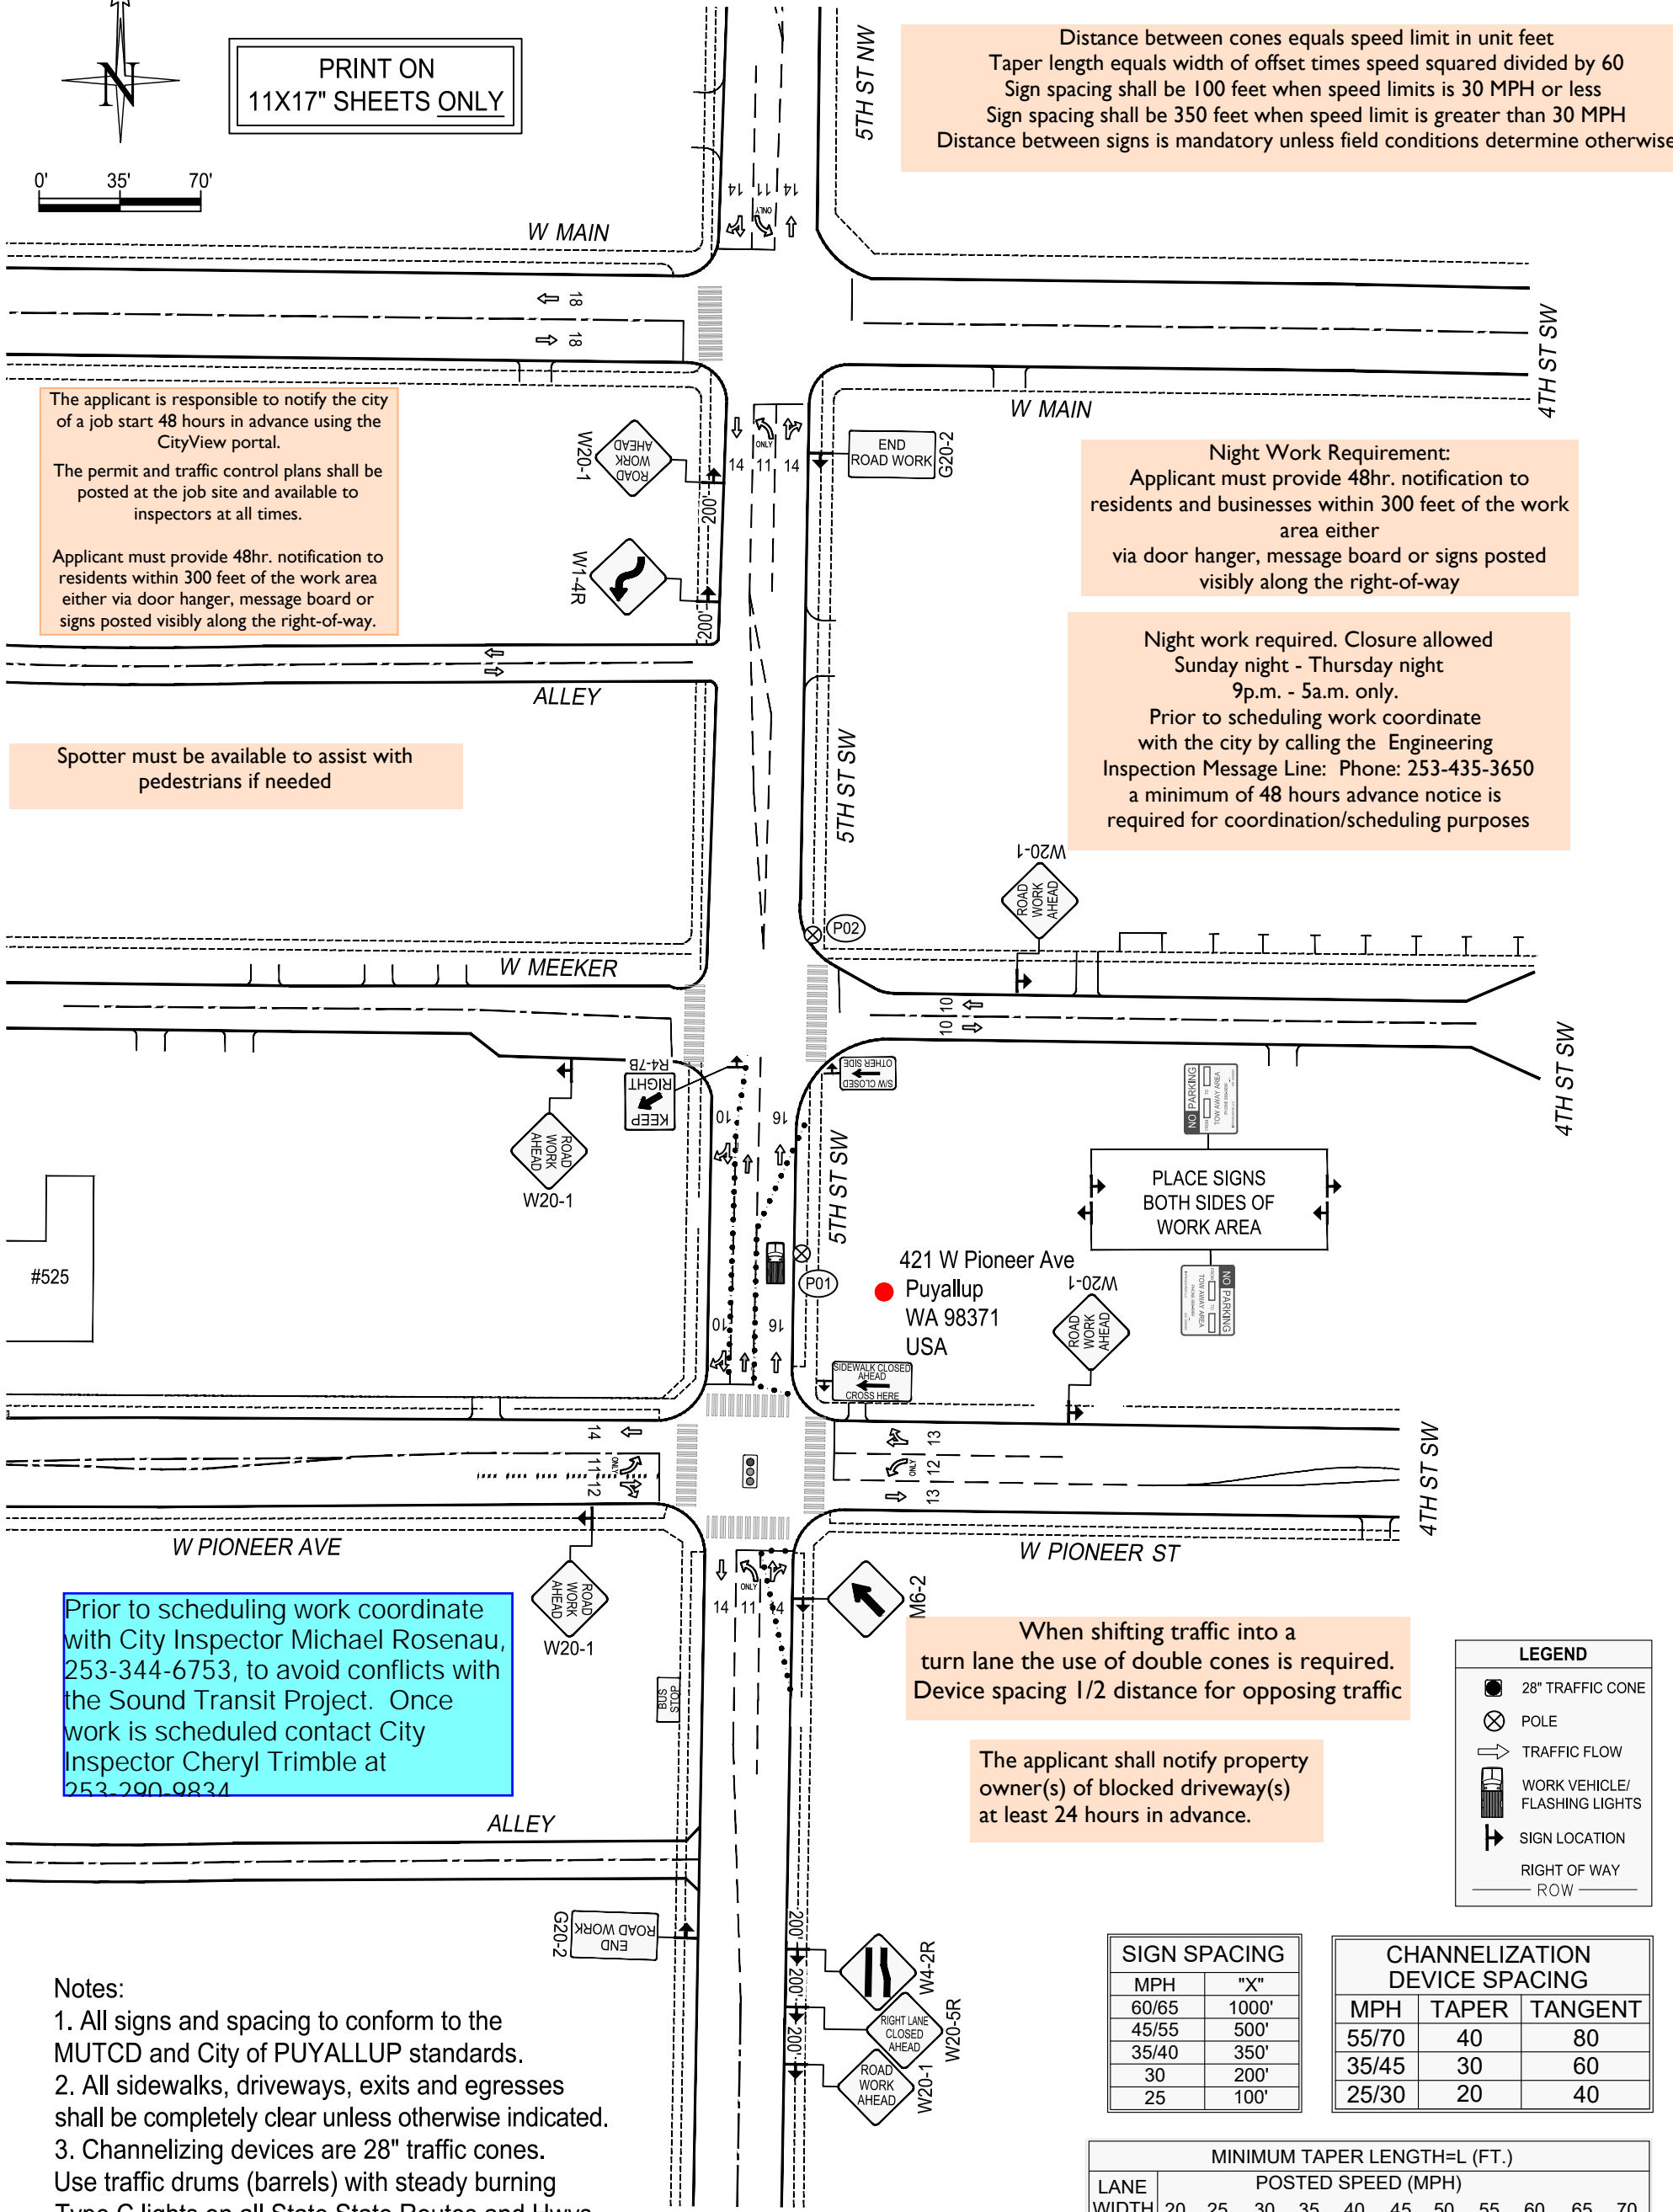

Distance between cones equals speed limit in unit feet
Taper length equals width of offset times speed squared divided by 60
Sign spacing shall be 100 feet when speed limits is 30 MPH or less
Sign spacing shall be 350 feet when speed limit is greater than 30 MPH
Distance between signs is mandatory unless field conditions determine otherwise

The applicant is responsible to notify the city of a job start 48 hours in advance using the CityView portal.
The permit and traffic control plans shall be posted at the job site and available to inspectors at all times.
Applicant must provide 48hr. notification to residents within 300 feet of the work area either via door hanger, message board or signs posted visibly along the right-of-way.

Night Work Requirement:
Applicant must provide 48hr. notification to residents and businesses within 300 feet of the work area either via door hanger, message board or signs posted visibly along the right-of-way

Night work required. Closure allowed
Sunday night - Thursday night
9p.m. - 5a.m. only.
Prior to scheduling work coordinate with the city by calling the Engineering Inspection Message Line: Phone: 253-435-3650 a minimum of 48 hours advance notice is required for coordination/scheduling purposes

Spotter must be available to assist with pedestrians if needed

Prior to scheduling work coordinate with City Inspector Michael Rosenau, 253-344-6753, to avoid conflicts with the Sound Transit Project. Once work is scheduled contact City Inspector Cheryl Trimble at 253-290-9834

When shifting traffic into a turn lane the use of double cones is required. Device spacing 1/2 distance for opposing traffic

The applicant shall notify property owner(s) of blocked driveway(s) at least 24 hours in advance.
