INSPECTION REPORT

Date of Inspection: Jan 03, 2023 Inspection Result: FAILED

Permit Number: PRCCP20220770

Property Address: 1601 39TH AVE SE, PUYALLUP, WA 98374;

Contractor: ABSHER CONSTRUCTION CO PO BOX 280 PUYALLUP, WA 98371-0152

Raygan Kettman 1001 SHAW RD E PUYALLUP, WA 98372

To construct: The project proposes a new STEM classroom and laboratory building

and a new parking lot, net gain of 100 stalls. Improvements include asphalt paving, concrete paving, a new building, utilities services for the new building, and stormwater management. Utility services include domestic water and water main, sewer main and services, natural gas, primary and secondary power, and telecommunications. Modifications to the existing parking lot east of the building and sidewalks adjacent to

the building will occur. A belowground detention facility utilizing
Stormtech MC-7200 chambers are proposed for stormwater flow
control. A bioretention facility will be used upstream of the proposed
flow control facility to provide stormwater quality treatment for pollution

generating impervious surfaces (PGIS).

On this day we have inspected your construction for **Erosion And Sediment Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: Tunista is digging the swale along the lower side of the parking lot. They finished stripping and exported using the construction entrance.

The construction entrance has failed and there was track out.

Tunista is supposed to repair the construction entrance.

See corrections.

Corrections:

- 1 Repair and maintain construction entrance.
 - Zero track out. This needs to be cleaned up at time of track out.
