On this day we have inspected your construction for **Comment Engineering Div Inspection** and we find the following result of the inspection. If there are any questions, please contact the inspector below.

Comments: AA Asphalt paving the asphalt cutback today prior to replacing curb and gutter per city standards. The job was scheduled yesterday (holiday), and the crew arrived in the afternoon. They were still on the road when cars lined up in front of the school for student release. It was discussed with the contractor, last week, that they would need to work around the bell schedules.
