

Refer to the City standard details 02.03.02 & 05.02.01 for typical erosion and sedimentation control methods.

Any public curb, gutter, or sidewalk broken now or during the course of construction shall be removed and replaced per City Standards.

A 10" diameter core drill is allowed for potholing. For pothole windows larger than 10" in diameter or trenching completed in existing roadway, the contractor shall restore the pavement by installing the trench patch and then grinding/overlaying. All roadway restoration and street patches shall comply with City Standard Detail 01.01.20.
