Development Submittal Notice

Permit Application Number PRCCP20260391

Dear CES NW Inc.,

Thank you for submitting your permit application documents to the City of Puyallup. The Permit Center reviewed your submission on March 19, 2026 and determined that it is insufficient.

Missing or Insufficient Submittal Documents

Please submit the following items through the [permitting portal](#).

- **Landscape Plan with Utility Overlay**
- **Stormwater Report**
- **Construction SWPPP** - outlining how the project will meet the 13 elements to control erosion and prevent sediment and other pollutants from leaving the site during construction of the project. Note: this is minimum requirement #2, but the City of Puyallup requires this document to be submitted separately.
- **Engineering Cost Breakdown Fee Calculation** – [Can be found here](#)
- **Traffic Control Plan**
- Please note that the Engineering reviewer is Jamie from our Engineering Department. He states, additionally, that it's important to mention that this project will require a Storm Water Pollution Prevention Plan (SWPPP), a Cost Estimate, and a Traffic Control Plan. They will also need to update their Operations and Maintenance Manual for the site. If you have any questions regarding these submittal items, please feel free to reach out to Jamie Carter at jcarter@puyallupwa.gov

The submittal shall only be considered complete if the information requested above is received by the City of Puyallup within 90 days of the date of this letter and deemed satisfactory by the Permit Center. Otherwise, your permit application will be canceled, and you will need to apply for a new permit. Once your submission is accepted, deemed complete, and any outstanding fees are paid, your submittal will proceed to plan review.

For questions or assistance, please contact the Permit Center.

Always in Season,

Puyallup's Permit Center
