Stanley Convergent Security Solutions, is a UL listed fire and security alarm installation and maintenance company, submits the following description of work to be done at the above listed location.

Scope of Work

Replacing a defective board in a SK-5820. This panel is UL Fire and NFPA-72 compliant, and has built-in power supply and charger. The panel will reconnect to the existing Devices and Appliance previously attached to the panel. Upon completion of the board swap a systems test will be conducted to ensure that all of the appliances and devices are being signals are being picked up by the panel and to also verify that the signals are being received by the Alarm Center.

Thank you for this opportunity.
