

CRITICAL AREA IDENTIFICATION FORM

This identification form is to be submitted in advance or concurrently with a project application if the proposed project is subject to the requirements found in the City's critical area code PMC 21.06. The purpose of this form is to determine if a critical area report is required due to the development site being on or near any critical areas. Please fill out this form completely where applicable.

Applicant Information

Name	Jessica Wilson			
Address	333 S Meridian			
City	Puyallup	State	WA	
		Zip	98371-5904	
Email	jjwilson@puyallupwa.gov		Phone	253-435-3645

Briefly describe the proposed development project:

The proposed project is located within the walled enclosure of the City of Puyallup Water Pollution Control Facility. The work includes the following. Install a third secondary clarifier (110 ft diameter) immediately north of the existing clarifiers, new piping and associated electrical work to connect the new clarifier to the existing hydraulics and SCADA systems, install/replace existing equipment in existing RAS/WAS Building. Site restoration including replacing existing asphalt disturbed during construction and installation of 2960 SF of crushed gravel on the west side of the new clarifier.

Based on the applicant's knowledge and research of the project site, please select any of the critical areas listed below that are located on or within 300 feet of the property boundaries		
<input type="checkbox"/> Wetlands	<input type="checkbox"/> Lakes/Ponds	<input type="checkbox"/> Streams/Creeks
<input type="checkbox"/> Slopes 0% - 15%	<input type="checkbox"/> Slopes 16% - 39%	<input type="checkbox"/> Slopes 40% or Greater
<input type="checkbox"/> Puyallup River Shoreline	<input type="checkbox"/> Clarks Creek Shoreline	<input checked="" type="checkbox"/> Volcanic Hazard Areas
<input type="checkbox"/> Shoreline Classification	<input type="checkbox"/> Wellhead Protection Area	<input type="checkbox"/> Habitat Conservation Area
<input type="checkbox"/> Conservancy	<input checked="" type="checkbox"/> Flood Zones	<input type="checkbox"/> Habitat Corridor
<input type="checkbox"/> Rural	Flood Classification: Zone B - Protected by levees from the 100-year flood	<input checked="" type="checkbox"/> Aquifer Recharge Area
<input type="checkbox"/> Urban		

Please describe the critical areas checked above and their location in relation to the proposed development. Please show their location on any plans to be submitted

The northern portion of the WPCP is located within a FEMA designated Zone B - Protected by levees (River Road) from the 100-year flood.
The entire WPCP is located in a Volcanic Hazard Area and an Aquifer Recharge Area.

Do you know of any present or past critical area studies that have been conducted for critical areas on-site or adjacent to the site? Please describe below; including their date, scope, conclusions, and parcels they included

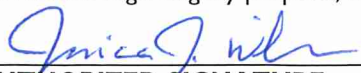

City of Puyallup, Water Pollution Control Plant Flood Hazard Plan, October 2007. The purpose of the Plan was to provide a complete, concise summary of the storm drainage facilities and the appropriate measure to protect essential critical sanitary sewer infrastructural from flooding due to Puyallup River flooding events. The Plan includes updated drawings of the existing stormwater facilities, an assessment of the structural stability of the existing perimeter wall in the event of flooding outside the plant and recommendations to protect essential facilities from flooding. The Plan included the entire 12.15 acre WPCP site. The Plan concluded that the WPCP is generally protected from flooding from the Puyallup River via backups in the storm drainage system as long as the existing protection measures (check valves on existing stormwater systems) are in good working order. The Plan recommended additional check valves and use of an inflatable berm at the north gate to act as a flood wall in the event the levee (River Road) is overtopped.

Do you know if any critical areas have been placed inside a tract or a protection easement that is recorded on the title or plat for this site or any adjacent site? Please describe below, including name of tract or easement, location, and Puyallup permit number or recording number

None known.

AUTHORIZATION:

I, the undersigned hereby certify that this application has been made with the consent of the lawful property owner(s) and that all information submitted on or with this application is complete and correct. I understand that false statements, errors, and/or omissions may be sufficient cause for denial of any related applications. I acknowledge that if the City needs to obtain the services of an expert third party to review any technical information regarding my proposal, that I shall be responsible for any financial costs of said third party review.
