**PERMISSION TO ACCEPT FINAL PERMITS EARLY**

Date: \_\_\_\_\_  
Applicant: \_\_\_\_\_  
Project Name: \_\_\_\_\_  
Project Address: \_\_\_\_\_  
Case Number: \_\_\_\_\_

The Development Review Team has conducted an initial review of the above-cited development project. At this point, team members have reached a consensus that the building footprint/design and site plan improvements proposed for this plan are unlikely to be affected by further project review/conditions.

Given this finding, the following permit application(s) may be submitted for this project:

- Clear, fill, and grade engineering permit application
- Civil engineering permit application
- Building permit application

**If those final permit applications are submitted prior to completion of the land use process, the applicant must sign the standard disclaimer for early submittals (Attachment B).**

**FINAL PERMIT SUBMITTAL DISCLAIMER**

Project Name: \_\_\_\_\_

Project Address: \_\_\_\_\_

Project Case Number: \_\_\_\_\_

I, the undersigned, understand that an early building and/or engineering permit submittal for this project is being made at my own risk. I understand that City review and approval of the above-cited land use permit is not yet completed and that any changes resulting from City review of this land use permit may alter some aspect of the site/architectural plans, possibly resulting in a need for new final submittals/plan review fees and/or additional review time.

It is understood that no building and/or engineering permit will be issued until completion of the SEPA appeal periods and/or issuance of a condition letter and/or public hearing decision, whichever is last.
