Subject: Fwd: Assessment submitted for 2022-07-04974, Normandy Heights, 2007 Shaw Rd, Puyallup
Attachments: 2024NormandyHeightsCRA.pdf

This is more of a technical notice than a submission, as the local government bears the responsibility of formal consultation.

Let me know if you need anything else.

Cultural resource surveys, and specifically discussions of archaeological site data, are exempt from public disclosure under RCW 42.56.300. Please contact DAHP prior to posting cultural resource surveys publicly.

I have uploaded the attached report to project 2022-07-04974 in WISAARD.

WISAARD:

2022-07-04974

Assessment:

Cultural Resource Assessment for Normandy Heights, 2007 Shaw Rd, Puyallup, Pierce County, WA

Address:

2007 Shaw Rd, Puyallup, Pierce County
T20 R4E Section 35
Parcel 0420354039

Lead Agency:

Pierce County

Archaeological Survey Findings:

Archaeological site 45PI01647, an isolated jasper lanceolate biface hafting element with a snap fracture, was observed in shovel probe 26 at 35cmbs in the northwest portion of the project. Delineation of this isolated artifact did not result in the observation of additional archaeological resources. Antiquity Consulting recommends the artifact be donated to the Puyallup Tribe of Indians. The project should comply with an inadvertent discovery plan because there is risk of encountering isolated artifacts in this area.
