Pierce College Master Plan (City of Puyallup Project ID: P-21-0049)

Mr. Beale:

Thank you for notifying the Puyallup School District (the “district”) regarding the Pierce College Master Plan update application. The Pierce College campus is in proximity to several district school facilities, including Ferrucci Junior High located at 3213 Wildwood Park Drive. The section of Wildwood Park Drive, fronting the Pierce College campus, is within the designated walk zone for Ferrucci Junior High school.

The City of Puyallup Safe Routes to Schools Plan includes Wildwood Park Drive, from 39th Ave SE to 23rd Ave SE, as a Top 10 Priority Project for pedestrian improvements (*see Fig. 6 from the City of Puyallup SRTS Plan attached*). The plan also identifies crossing enhancements along this corridor at several locations, including 31st Ave SE. Finally, the SRTS plan envisions pedestrian connections from Wildwood Park Drive to Pierce College, Ferrucci Junior High, and other elementary schools near the Wildwood Park Drive corridor.

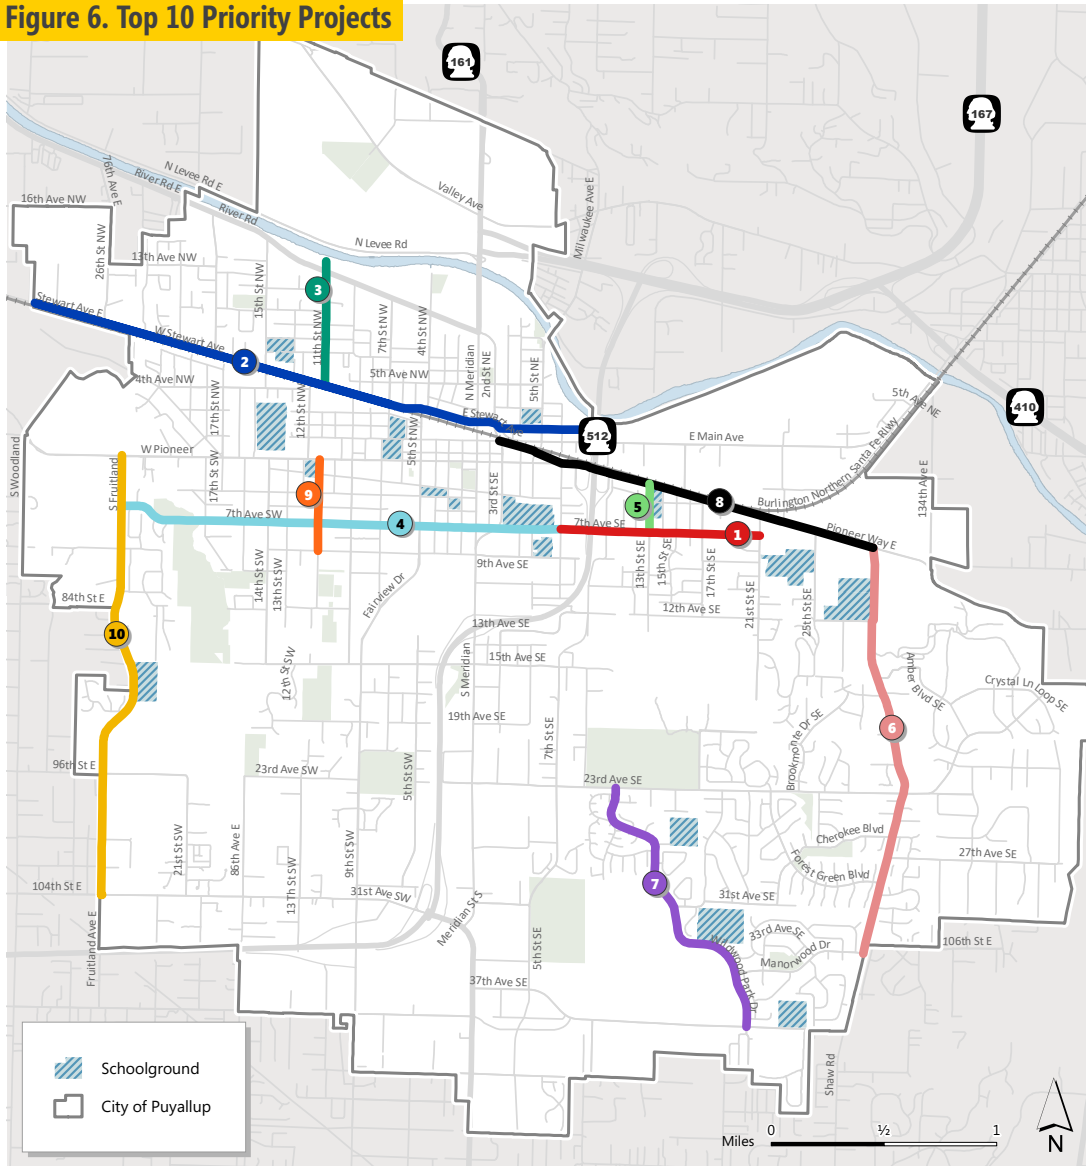

The district encourages Pierce College and the City of Puyallup to consider these planned improvements as part of the future build out of the Pierce College campus. Please make the district a party of record this project.

Sincerely,

Brian Devereux
Director of Facilities Planning

cc: Dr. John Polm, Superintendent, Puyallup School District
Mario Casello, Assistant Superintendent of Operations, Puyallup School District
Elizabeth Fisher, Director Transportation, Puyallup School District
