## REQUIREMENTS FOR SUBMITTAL OF A BOUNDARY LINE REVISION APPLICATION

(1) Completed Application Form. Application shall be made on forms provided by the community development department, and completed by the applicant or authorized agent;

(2) Complete Survey of the Plat. A complete survey is required to be compiled on an 18-inch by 24-inch mylar sheet containing the following information:

(a) The names and address of the owners of said tract;

8.8 H X

(b) The legal description of all affected tracts and legal descriptions for all the proposed lots;

(c) County assessor parcel numbers for all affected tracts;

(d) North arrow, scale and date of the drawing. The scale shall be one inch equals 50 feet for sites two acres in size or less, and one inch equals 100 feet for sites greater than two acres in size; (e) Vicinity map, containing the outline of the affected tract(s), the nearest public streets to the north, south, east and west, and the quarter/quarter section in which the site is located;

(f) Boundary lines of the tract(s) to be subdivided, and corresponding bearings and dimensions;(g) Existing and proposed lot lines. The existing lot lines shall be shown using a heavy dashed line, and the proposed lot lines shown using a heavy solid line;

(h) Square footage of all proposed lots and tracts;

(i) Location, material and size of all monuments. Monuments shall meet the specifications of the public works director or designee;

(j) Registered land surveyor certification that the drawing is a true and correct representation of the land surveyed, and that all monumentation locations, size and materials are correctly shown;
(k) Lot size and numbering. The square feet in each lot shall be shown, and all lots shall be numbered consecutively from one to the total number of lots. All tracts shall be assigned a consecutive letter designation beginning with the letter A;

(I) Accurate location and dimensions of all existing structures, septic systems and utility services, and the distance between structures, improvements and utilities to the adjoining proposed lot lines;

(m) Topography showing existing and proposed contours at five-foot (5) contour intervals except for any portion of the site containing slopes of 15 percent or greater which shall be shown at two-foot (2) contour intervals. The contour intervals shall extend at least 100 feet beyond the boundaries of the site;

(n) Proposed utility services shall be noted upon the face of the drawing and/or shown upon the plat layout in such a manner that clearly indicates the distribution and connection points for each utility system;

(o) The layout, names, location, purpose, width and other dimensions of proposed streets, alleys, easements, parks and other open space, property reservations, lot lines, yard requirements and utilities;

(p) Boundaries and associated buffers, development envelopes, or other information for any critical areas as defined or required by Chapter 21.06 PMC;

(q) Notarized acknowledgments and signatures of the property owner(s);

(3) Plat Certificate. A plat certificate confirming ownership and any easements or other encumbrances of record affecting the subject parcel. The plat certificate shall have been prepared within two weeks of the date of application;

(4) Other Information. Additional information may be determined to be needed due to site conditions, setting or the proposed improvements, in order for the city to review and approve the proposed development. Other required information may include but not be limited to Critical Area ID Form, flood hazard assessments, traffic impact assessments, preliminary engineering designs, etc.
